NUMBER 41

Union Jacks Down Great Falls Selects

The first Basketball game of the Senior season was played in the Opera House Saturday night last, when Union Jacks played host to the Great Falls Selects, and won the game with a 56-41 count after an interesting and well played game.

The score hardly indicates the calibre of the two teams, because while the Jacks managed to keep in the lead after about the first eight minutes of play, it was by a narrow margin, and the visitors were within striking distance until the last quarter when they seemed to show more fatigue than the Jacks, and the smooth combination play of the Jacks commenced to make a little better and the difference widened.

Both teams enjoyed the game and put all they had into it. Minus the services of Donny Nilsson, who is out with a dislocated hip, and Dean Rolfson who has retired from active play, Howard Hicken who is in the armed forces as well as Dunlop who is Eastern Canada at a special school the Jacks had to shift their lineup considerably, but they floored six men and put up a mighty fine game all through. West and Stone, both small and fast, sifted in behind the defense of Great Falls and snared more than their share of points, and Rolfson, Heggie and Turner alternating on the guard line put up a good strong defense. Nalder was sniping as usual and it didn't matter which side was unguarded, "But" was always dangerous. The boys showed the early season lack of technique which always comes after a month's drill but they played a nice game and got a big hand from the crowd.

The Great Falls boys, banded together from several Montana teams that have been forced out because of a loss of players through military service, moving away and other causes, are a fine bunch of sports and good players. Many of them have been here before and they and the Jacks both enjoyed getting together again on the floor. They are shaping into a fine team, but need more practice to develop their plays to the point where they know just what to look for when a play is started. They played nice ball, and everyone present enjoyed the game.

Wilson Rolfson and Ralph Walker had the whistles for the game.

Following is the line-up and score:

Great Falls: Booth, 12; Wick, 8; Fieft, 8; Cooley, 5; Thompson, 6; Mundane Harris, 2. Total 41.

Jacks: Nalder 10; Stone, 7; West, 20; Turner, 10; Rolfson, 4; Heggie, 5. Total 56.

In the preliminary the Idlers defeated the High School by a close score of 39-36.

Mr. and Mrs. Murray Holt and sons of Raymond were Magrath visitors last week-end.

Mr. and Mrs. Alwyn Stone and children of Picture Butte were week-end visitors with relatives and friends in Raymond.

The 2nd Ward Gleaners and Men held their fireside Sunday evening last at the home of Mrs. Emma Dahl. A very interesting and enjoyable evening is reported.

LIONS MEETING

The Raymond Lions Club met in the Sugar Bowl on Monday, February 2 at 7:30 p.m. The meeting opened in the usual manner by singing "Oh Canada." Prayer being offered by Lion L. D. King. 33 Members and 1 visitor being present.

Pres. R. Pack introduced the new proprietor of the Sugar Bowl Vic Frawey, to the members.

The Cardston Lions Club party was announced to be held on Wednesday, February 25. Karl Wilde was introduced as a new member and Lion L. D. King introduced Teddy Grey as a visitor.

Community singing was then enjoyed by all, led by Lion J. McLean and Grandfather's Clock was the hit of the evening.

Pres. R. Pack addressed the assembly on Safety, giving the number of deaths and accidents in the United States for the past year.

Lion M. T. King then announced the program for the Con-joint Party of the Rotarians, The Raymond Legion and the Lions Club to be held in the Raymond Opera House on Monday next commencing at 8:15 p.m.

Pres. Pack and Lion J. Vanderhilt were the lucky winners of the War Savings Certificates which are drawn for every meeting.

The meeting closed by singing the National Anthem.

About Thirty Listen To Agriculturists

Despite a somewhat disappointing attendance, Wednesday night, the thirty odd present greatly enjoyed the talks given by Messrs. Wood and Graham, Agriculturists of the Government of Alberta, who talked on requirements for successful operation of a cheese factory, and stated that compared with many districts where successful factories were being operated, Raymond district had many more advantages.

Good cows good pasture, plenty of good feed for winter, and a determination to stick with it were necessary in dairy ing. Milking cows was a steady job, but it was a job that paid well. One of the speakers stated that while there was a lack of native pasture in this district that some of the most profitable land on any irrigated farm was the acreage seeded to grass as that furnished summer and fall feed for the dairy herd. He suggested that farmers take a pencil and keep track to see just what this pasture land actually brought in.

The meeting was very interesting and the speakers were given a vote of thanks at the conclusion of their talks. A. W. Jones was Chairman.

District Manager T. Geo. Wood of the Sugar Co., left Lethbridge by plane on Sunday for Montreal to be in attendance at a meeting to discuss the sugar situation in the Dominion. It is hoped that as a result of this meeting, and the sugar situation as it exists today, increased acreage may be permitted in Southern Alberta, where production of sugar beets is a proven, profitable and successful crop.

Beet Situation Being Closely Watched

Western Canada generally, and Raymond district in particular is interested in the outcome of the present meeting in Montreal regarding the future of the beet sugar industry. Various rumors have been circulated respecting the industry and it will be a relief to get the kernel of truth out of all the talk and know what's what, where cane can be produced, and if produced the transportation of the raw sugar to refine ries would be fraught with great risks. We have eleven million Canadians to provide with sugar, besides what might be done for Britain and her army and navy if the sugar were obtainable. Where will we get supplies to furnish even three-quarters of a pound per person weekly unless we increase our own production? Is western Canada so short of man power that Southern Alberta could not raise another few thousand acres of beets? We are at war and under such conditions even the school children might be requisitioned for thin ning and topping if necessary. We are not advocating this we are merely saying that it might be an answer to a question, and that it could be done with longer frost free period in Southern Alberta, are conditions which lend force to the arguments for more beets in Southern Alberta. With a gradually increasing population, too, the armed forces, better fed and better behaved soldiers, it should be remembered that more beets can be grown with result. We can't do a great deal out any more acreage per grow er. Talking with officials of Canada, but we can increase the Canadian Sugar Factories, Ltd. we gathered the idea that several thousand more acres of beets could be handled with the equipment on hand and processed at the two existing factories. Whether or not in-

creased acreage will be permitted or not is a question. It seems that any increase that could be undertaken safely would be welcomed by the Dominion Government. The war in the Pacific has definitely altered the outlook for cane sugar. There are few countries left in the far flung Pacific where cane can be produced, and if produced the transportation of the raw sugar to refine ries would be fraught with great risks. We have eleven million Canadians to provide with sugar, besides what might be done for Britain and her army and navy if the sugar were obtainable. Where will we get supplies to furnish even three-quarters of a pound per person weekly unless we increase our own production? Is western Canada so short of man power that Southern Alberta could not raise another few thousand acres of beets? We are at war and under such conditions even the school children might be requisitioned for thin ning and topping if necessary. We are not advocating this we are merely saying that it might be an answer to a question, and that it could be done with longer frost free period in Southern Alberta, are conditions which lend force to the arguments for more beets in Southern Alberta. With a gradually increasing population, too, the armed forces, better fed and better behaved soldiers, it should be remembered that more beets can be grown with result. We can't do a great deal out any more acreage per grow er. Talking with officials of Canada, but we can increase the Canadian Sugar Factories, Ltd. we gathered the idea that several thousand more acres of beets could be handled with the equipment on hand and processed at the two existing factories. Whether or not in-

We have not heard of any authentic statement that would indicate that less beets would be grown this year than last and there are several reasons why in the general opinion more should be grown. Over a period of sixteen years, Southern Alberta, starting from Raymond and gradually spreading has proven itself a very good beet district. Steadily increasing average yield and sugar content and a gradually longer frost free period in Southern Alberta, are conditions which lend force to the arguments for more beets in Southern Alberta. With a gradually increasing population, too, the armed forces, better fed and better behaved soldiers, it should be remembered that more beets can be grown with result. We can't do a great deal out any more acreage per grow er. Talking with officials of Canada, but we can increase the Canadian Sugar Factories, Ltd. we gathered the idea that several thousand more acres of beets could be handled with the equipment on hand and processed at the two existing factories. Whether or not in-

There will be no 2 a.m. next Monday morning. That is the zero hour when clocks are advanced to the daylight saving time across the Dominion. All you need to do is to advance your clock or watch one hour when you retire Sunday night and forget about the change. Your night will be that much shorter, but aside from that there will be no change. School hours, business hours, etc., will remain as they are. Trains across Canada will pull into the station they are nearest to at 2 a.m. and wait for the time change. The change will be called out over the wires for four minutes so that trainmen can change their watches. Don't worry about the change it won't make any difference at all only that daylight hours in the morning will be shorter and the evenings longer.

Annual Ratepayers Meeting

With about thirty present, Town instead of the present supply. There are a number of problems in connection with this proposal, and all present felt that it should be studied very carefully before any decision was made.

AIR CADET SET UP ALMOST COMPLETE

The local Air Cadet Committee and leaders for the movement are about ready to commence active drill and study, waiting only final instructions from Ottawa.

Dr. Hall is Chairman of the Group and Allan Roddick is Secretary. Committee Members are Frank R. Taylor, J. Golden Snow and Shirley King.

J. Kitchen is Flight Commander, and instructors for the various phases of the work have been contacted and the committee is waiting their final answer.

The charter has been received from headquarters at Ottawa and the Committee personnel has been approved, and the leaders of the work are now being approved before the actual set up is instituted and work commenced.

A discussion was then entered into regarding the proposed change of water supply for the Town. It is proposed to erect a dam in the Hancock coulee at the south-east corner of the

Will Nominate February 21st. In Raymond

Chas. Walker

Found Dead

Chas Walker, aged 65 bachelor and living alone, was found dead in his bed just after dinner time Thursday, and the Doctor's examination showed that he died in his sleep from natural causes.

"Charley," as everyone knew him, had been a familiar figure about the streets for many years past. He served in the last war and when his health prevented heavy work, he busied himself taking care of gardens, lawns, etc., about the Town, having looked after the Town Hall grounds for two or three different summers. The only known relative is a sister living in England.

Funeral services will be held in the 2nd Ward Church Sunday, Feb. 8th at 2 p.m. All Vets are asked to be at the Church at 1:30 p.m.

Daylight Saving

There will be no 2 a.m. next Monday morning. That is the zero hour when clocks are advanced to the daylight saving time across the Dominion.

All you need to do is to advance your clock or watch one hour when you retire Sunday night and forget about the change. Your night will be that much shorter, but aside from that there will be no change. School hours, business hours, etc., will remain as they are. Trains across Canada will pull into the station they are nearest to at 2 a.m. and wait for the time change. The change will be called out over the wires for four minutes so that trainmen can change their watches. Don't worry about the change it won't make any difference at all only that daylight hours in the morning will be shorter and the evenings longer.

Music Club Party

The annual party of the Ladies Music Club was held Monday evening last at the home of Miss Ruth Evans, when a delicious turkey supper, with all the trimmings was served to Club members and partners, tables being set for 40 and decorated with Valentine place cards.

The following program was carried out:

"O Canada" sang by the group.

Vocal Solo—LeRoy Anderson.

Piano duett—Emma Dahl and Mayhelle Anderson.

Two numbers by the Ladies Chorus.

Harmonica Solo by Archie Terry.

Reading by Wesley McMullin.

Two numbers by the Male Chorus.

Male quartette, Jos. Stroug, Wesley McMullin, Alvin Jones and Scott Salmon.

The remainder of the evening was spent in games directed by Miss Armito Kearn and Miss Ruth Evans. The group playing were shaps, flats and naturals, and the naturals won. A most enjoyable evening was shared by all.

GEORGE E. COURT NAMED RETURNING OFFICER— FIVE NEW UNITS

Edmonton, Jan. 31 (CP)—Setting up immediately five larger municipal units in Alberta and automatically wiping out the 17 smaller councils in areas covered by the five, orders in council were announced last night by Hon. Lucien Maynard, minister of municipal affairs.

The orders, now in effect, were issued under legislation passed last year and provide for a temporary administrator to act for each of the new units until councils are elected Feb. 28.

Raymond Unit

The new units are Raymond, Stony Plain, Wainwright, Minburn and St. Paul. Formation of a sixth unit in the Bow Island district will be considered at a meeting Feb. 12 when officials of the municipal affairs department will confer with representatives of the smaller units to be absorbed—Bow Island, Eureka and Forty Mile.

Nominations Feb. 21

Nominations or councillors for the five larger units are to be filed Feb. 21 and voting will be staged Feb. 28 when other rural municipal elections in the province are held.

In the Feb. 28 voting ratepayers in any of the divisions of each larger unit may vote for a candidate in some other division although the candidates must be nominated by divisions in later elections ratepayers may vote only for candidates in their own division.

Potts Is Named

Details of the make-up of the larger units were announced last night for Raymond unit follow. Five divisions, returning officer, George E. Court, of Raymond; temporary administrator T. A. Potts, of Edmonton, consists of the M.D. of Sugar City No. 27, L.I.D. No. 7, the eastern row of townships in L.I.D.'s 8 and 38, and the southern row of townships in L.I.D. No. 67.

Further details of the new large municipal setup in the south are not available immediately, although as announced on different occasions, the preliminary organizational work has been in progress for some time. Hon. Lucien Maynard was in the south some time ago in connection with the plans. Nels W. Peterson of Welling, Reeve of the Sugar City Municipality was in Calgary last week in connection with the new set-up, especially the area included.

Geo. Lyons of Lethbridge was a Raymond visitor Monday.

We really did enjoy the double bill Lee had at the Capitol Saturday last when he showed "Parson of Panamint" and also "Shipyard Sally." Good entertainment and variety made it a very enjoyable evening.

Basketball

The Jacks are playing host Saturday night to the "Ad-Men" of Calgary. This will be a good game and everyone should be there.

Geo. Brewerton is in Calgary on business today.

Weather is nice again after our skiff of snow.

PRICES WILL GET RESULTS:

As business men in Raymond the present condition of affairs due to restriction of sales on fires, and the forthcoming rationing of gasoline, offers us a real opportunity. But, we have certain definite obligations if we are to capitalize on it. We owe it to ourselves and our community to play the game in respect to service, quality and price. Only by so doing will we benefit.

On the street Monday we overheard a little bit of conversation as follows. "I can drive from here to Lethbridge

and buy my groceries and save the price of my gas." Another bystander remarked "Possibly if you buy enough." Number one countered "Well, of course not on a small order, but I can on six or seven dollars." Is this a fact? Is there that much spread between local prices and prices in Lethbridge? On Monday another man showed us a small purchase he had made, for which he paid twenty cents, and he said that he could buy the same article in a near town and not in Lethbridge either for a dime. Now, where is there any cause for such a vast spread, double the price on a ten cent purchase.

It is not our desire to try and tell business men how to run their affairs. But we continually hear local business lamenting the fact that so much money goes out of town to be spent elsewhere. Are we driving it away from our doors? We would like to see confidence established between merchants and purchasers in Raymond to the point where the man who spent one dollar or one thousand dollars would feel he was getting a square deal. These two in-

GATHER UP THAT SCRAP METAL ON THE FARM BECAUSE IT IS NEEDED IN WAR INDUSTRY

The amount of scrap iron lying useless on Canadian farms—if combined with other necessary metals—would be sufficient to build many tons of shipping—freighters & battlecraft. Canadian farmers are urged to begin collecting this scrap metal as another means of aiding in the war effort. Scrap iron, you know, is an essential ingredient in the manufacture of steel.

Listen to this: One hundred and twenty-five pounds or so of rusty old scrap iron on your dump pile, when mixed with other materials, is enough to make a 500-pound aerial bomb. And if you pile it up with that of all the farmers in your district, 36,000 pounds of it will make a 27-ton tank.

stances seem to indicate that some people at least feel that local business men are here to hook them. Are we?

CLEAN GRAIN RECOGNIZED

Ninety thousand bushels of grain were cleaned by the Crowfoot Grain Cleaning Association in 1941, states B. J. Whitbread, District Agriculturist, Calgary, and already this season 43,000 bushels have passed through this locally owned and operated machine.

Organized by the Field Crops Branch, Department of Agriculture, approved associations of farmers may enter contracts with the Provincial Government to obtain portable grain cleaners of a superior and efficient type.

The machine at Crowfoot is equipped to clean all cereal grains for seed. The Association appoints a manager to run the machine, which travels from farm to farm as requested. Cleaning charges are reasonable and customers are well pleased with the service they obtain.

The Springbank district west of Calgary has also organized a Grain Cleaning Association of 40 members. The plant is expected within a few days and a large number of farmers

are planning to have their seed grain cleaned.

Where such equipment is available there is little need for farmers sowing impure seed and weed control problems should decrease as the years go by.

NEWS NOTES

The inspectors were at the High School this week.

A new roof and a cement floor have been added to the J. D. Hall building recently.

Mr. and Mrs. Magerath Merrill and family of Hill Spring were Raymond visitors on Saturday.

1 * 1 * 1 *

Recent enlistments in the C.A.F. from Raymond include Grant Fawns and Paul Evans who have both been accepted into the service.

Mr. and Mrs. Geo. Atwood, and Mr. and Mrs. Chas. Atwood left Thursday to spend a few days with N. L. Atwood and family at Jaffray, B. C. The primary purpose of the trip was the marriage of Nephi's next eldest son which took place at that point today.

The Purchase of Sugar is Now Regulated by Law

As a prudent precaution, the quantity of sugar which may lawfully be consumed in any household is now restricted by law to an amount of three-quarters of one pound per person per week, and it is now unlawful to purchase more than two weeks' supply at any one time or to make any purchase if present supplies are sufficient for more than two weeks.

This step has been taken to conserve the satisfactory reserve stock of sugar in Canada and is an assurance to the consumer that there is no reason for heavy buying of sugar.

Ration coupons will not be used to enforce the sugar limitations in Canada. The supply of sugar in our country has been under control for more than two and a half years and the housekeeper has always been able to satisfy her needs; she will continue to be able to do so and the price ceiling law protects her against any increase in price.

The maintenance of the new regulation governing the purchase of sugar rests, as the success of all laws in a democratic country must rest, upon the loyal support of the people. Any consumption of sugar in excess of the quantity stipulated by this regulation is not only an offence against the law, but is also a betrayal of the war effort and consequently an offence against decency.

Reports received from retailers indicate that in some districts there has been misunderstanding of the requirements of the law. In some cases, people are under the impression that they should at once lay in a sufficient supply for two weeks; this of course is not necessary because a continued supply of sugar is assured. In other cases it has been assumed that a greatly restricted ration is to be made effective in the near future. This is incorrect because The Wartime Prices and Trade Board has already stated that the sugar supply situation is such that requirements of the consumer at the rate of three-quarters of a pound per week can readily be supplied.

As a means of protecting consumers from unknowingly breaking the law, it is suggested to retailers that, for the present, they limit sales to any one customer to an amount of not more than five pounds.

Summary of Sugar Rationing Regulations

1. The ration is $\frac{3}{4}$ pounds per person per week, including adults, children and infants, members of the family, boarders, servants, and guests who remain for four days or more.
2. Purchase your sugar in the ordinary way, but not more than two weeks' supply at a time. No coupons, stamps or tickets are required.
3. Do not purchase any sugar if you have two weeks' or more supply on hand.
4. Persons in remote areas who are not able to buy every week or two weeks may continue to buy more than two weeks' supply at a time, but should measure their consumption at the ration rate, namely $\frac{3}{4}$ pounds per person per week.
5. Lumber camps and other firms providing board for their employees must see that consumption is restricted to $\frac{3}{4}$ pounds per week per person, effective immediately.

6. Economize on sugar in every way you can; some people can get along on less than the ration. Persons dining in hotels, restaurants, etc., are expected to restrict their sugar consumption.
7. Additional supplies of sugar will be made available for home preserving and canning.
8. The restriction applies only to cane and beet sugars of all kinds—granulated sugar, icing sugar, fruit sugar, brown sugar, raw sugar, etc.
9. Industrial users of sugar, hospitals and other institutions, hotels and restaurants, will be advised by the Sugar Administrator how the sugar restrictions will affect them.
10. Retailers are entitled to refuse sale or to limit sales to any person they have reason to believe is attempting to disregard this law.

Vigorous steps will be taken to punish wilful infractions of the law. The penalties provided are imprisonment for as long as two years and a fine up to \$5,000

Issued Under the Authority of THE WARTIME PRICES AND TRADE BOARD, Ottawa, Canada

NEWS NOTES

Mr. and Mrs. Don Rodeback were visiting relatives in northern Montana over the week-end.

O. H. Snow has been confined to his home for a week or so with a heavy cold.

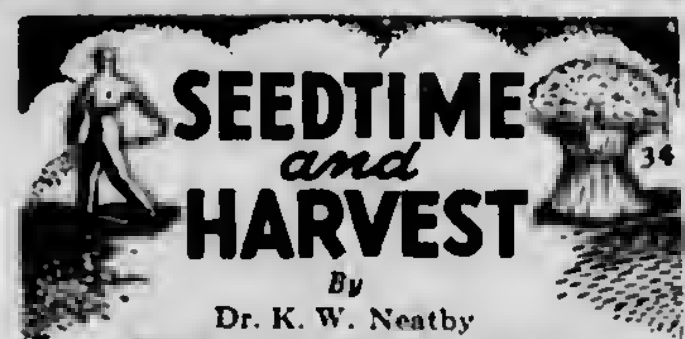

Billy Mehew and Derald Erickson were recently accepted into the R.C.A.F. The latter is in Toronto at a Trades School, the former training for pilot.

Tom Roberts and Jos. Kirkham have been busy for a day or two building a window box in the Mercantile and partitioning off the Groceries from the Dry Goods Department at the front of the store.

What everyone wants to know. Will the \$16,000.00 surplus the Town has on hand result in a lowering of Taxes or will it be used for some civic project or just what. If taxes can be lowered everyone will heave a sigh of genuine relief.

Sam Baker, 49 pioneer of the Leavitt district west of Cardston was instantly killed in the Beaver Mines district Wednesday, when a dead tree broke off and the trunk hit him. He was sawing trees, getting out lumber for a new home when the accident occurred. His wife one daughter and five sons survive, two sons and the daughter being married. Several sisters survive.

The Bootblack: "Light or dark, sir?"
The Absent-minded Professor: "I am not particular but please don't give me the neck."

To Treat or not to Treat
This article is not, as the title suggests, a discussion of barroom etiquette. It is concerned with the more important, if less stimulating(!) subject of seed treatment. Seed treatment is insurance and, like all insurance, costs something. We are all obliged to decide whether it pays to insure our buildings, cars, lives or crops, and if we decide that in the long run we shall gain by carrying the risks ourselves, we don't insure.

So it is with seed treatment except that sometimes we can be almost certain that treatment will save money. If, in 1941, we had smut in oats, covered smut in barley, or stinking smut (bunt) in wheat, there is no argument—we should treat.

In Alberta, plant pathologists have agreed to recommend treatment of cereal seed with an organic mercury dust as a regular practice. In Manitoba crop districts 3, 4, 6, 9 and 10, farmers using their own wheat seed are advised to treat with Ceresan or Leytasan due to the prevalence of root-rotting and leaf-spotting fungi. Elsewhere in Manitoba and in Saskatchewan, farmers must make the decision for themselves.

The Associated Laboratory Services, with laboratories in Saskatoon, have undertaken to examine seed samples and to advise for or against treatment. This is, undoubtedly, a good test. But, though treatment may have been considered unnecessary last year, this does not mean that it need not be done this year. Also, if one farmer is advised not to treat, his neighbors should on no account assume that they would get the same advice.

what is a VICTORY BOND..?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it.

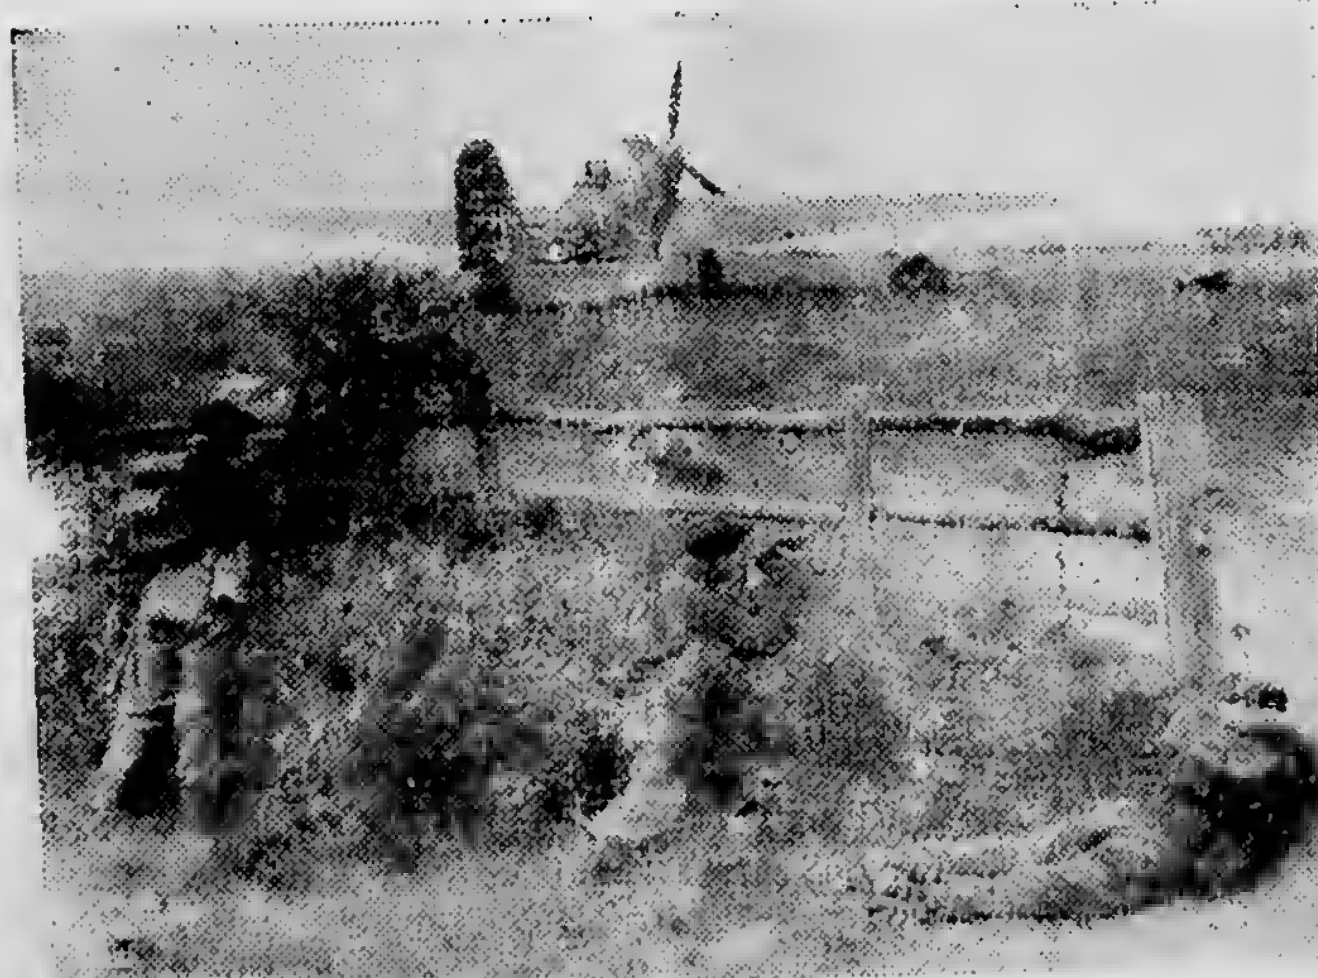

A Victory Bond is an asset more readily converted into cash than any other security.

YOUTH TRAINING SCHOOL NOTES

Classes and lecture periods
at the Youth Training School
are proving more interesting
than ever as the school proceeds.
Thursday afternoon Jack
Downs lectured on Poultry and
its care, and then gave a dem-
onstration of "Culling" and also
explained making and care of
poultry keeping equipment.

Friday morning Asst. Supt.
A. E. Palmer from Lethbridge
gave a very interesting lecture
of "The Future of Irrigation
Development."

Sydney Risk, in charge of
the Dramatic department of the
Extension program of the Uni-
versity has been having even-
ing classes all week with stud-
ents and the public, and these
classes have been very inter-
esting and well attended.

Next Friday all hog growers
are invited to a lecture and dem-
onstration by Ivan Garrison on
"Carcass Grading." The speaker
will have three types of carcasses
there to demonstrate with.

At 3 p.m. Friday afternoon
tea will be served to the Public
when the work of the students
will be on display, and at 8 p.m.
the closing program will be
given when one-act plays, skits
and musical numbers will be
given.

WARTIME WAGE CONTROL INSTITUTIONS

The National War Labour
Board has issued instructions to
Canadian employers and employ-
ees in regard to the Wartime
Wages and Cost of Living Bonus
Order (P.C. 8253).

As detailed in the advertise-
ment which appeared in last
week's issue, these instructions
define what are national indus-
tries falling within the scope of
the National War Labour Board
at Ottawa, and those that come
within the jurisdiction of pro-
vincial, or Regional War Labor
Boards.

Since wage control, together
with price control, have become
integral parts of Canada's war-
time design for living, the Na-
tional War Labour Board has
considered it necessary to de-
marcate, for the purposes of the
administration of the Order, the
respective jurisdictions of the
National and Regional Boards.

In general, National employ-
ers are designated as those
whose operations—such as trans-
portation and public utilities
etc.—are inter-provincial in char-
acter, or whose industrial
activities—particularly mining
and shipbuilding—are closely
related to the national war ef-
fort as a whole.

Regional employers are con-
sidered those in which the op-
erations of the industry or bus-
iness is definitely within pro-
vincial or municipal boundaries.
In this category fall most war
production plants, all sections
of retail and wholesale trade,
and services, etc.

Employers and employees in
the national field should ad-
dress their communications to
the Secretary, the National
War Labour Board, Ottawa,
while those in the Regional
category should address them-
selves to the Regional War
Labour Board in care of their
respective provincial govern-
ments.

Interpretative Rulings on the
Order have been issued in bul-
letin form, and these may be
obtained on application to any
Regional War Labour Board.

Mr. and Mrs. Walter Web-
ster and family of Lethbridge
spent the week-end with relat-
ives.

Miss Lois Jensen was hostess
at a chicken supper at her
home Saturday night when about
sixteen of her friends were
present for the sumptuous re-
past which was followed by
attendance at the Capitol. The
evening was pronounced a de-
lighted success.

Mark Dahl, son of Mr. and
Mrs. Rhonda Dahl is home on
two weeks leave having finish-
ed his preliminary training at
High River. He will return to
Macleod for more advanced
training after his leave, and
hopes to soon be a full fledged
pilot. The examination for pilot
demands almost perfection in
physique and Mark is to be
commended for passing in all the
requirements and making such
good headway.
